

**A math resource no teacher should be without!**

# REAL WORLD of MATH

**Meets NCTM Standards**

**Grade 4**

Make your own money. Measure the length of salamanders. Design a geometric tie. Create totally-cool totem pole patterns.

**CHALLENGE!**

your high performing students!

**MOTIVATE!**

your low performing students!

These real-world activities are part of the **Real World of Math** – a collection of 20 highly motivational activities that provides educators with assessment opportunities designed to build a foundation of basic understanding through the use of real-world learning situations focused on both curricular and technology development and enrichment.

*Teaching Tips, Answer Sheet, NCTM Standard Match and Technology Connections* accompany each activity. The 20 *Technology Connections* activities utilize Microsoft **PowerPoint**, Microsoft **Word** or Microsoft **Excel** to provide integrated opportunities for extending and differentiating concept instruction and assessment on computers in a lab or classroom. Students can access the electronic files via the provided CD. Each activity found in this book is also available as a modifiable **Word** document providing educators with an opportunity to customize tasks to better meet the needs of individual students. In addition, a *Technology Connection Tutorial* section and comprehensive *Tech Know-How* directions provide step by step procedures for utilizing specific tools and features that are most applicable to classroom instruction and effective technology integration. **Grade 4**

**Book includes:**

- 20 grade-level reproducible math activities
- NCTM Standards Correlation
- Teaching Tips
- Scoring Tools
- Technology Connections

**CD includes:**

- 20 Technology Connections activities
- Technology Connection tutorials
- Modifiable electronic files of math activities

**Interactive PowerPoints!**

**Motivate your students!**

**Differentiate with ease – Modifiable electronic files included**

**Self-assessing Excel activities**

**Easy-to-follow tutorials**

Systems requirements:  
Windows or Macintosh computers  
require Microsoft Office 2000, XP  
or 2003 versions of Word,  
PowerPoint and Excel.
